1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, and 6-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tanaka et al 5,618,873.

The cited prior art discloses a resin composition for a sliding member wherein the composition comprises PPS in the amount of 70 pbv, and a melt-moldable fluoroplastic polymer in the amount of 0.1-15 pbv. Patentees do not disclose the solidification temperatures, but said disclosure would appear to be inherent in view of the type of polymers involved and the indicated uses. See column 3, line 18 et seq.

2. Other references listed on PTO-1449 have been made part of the record.
